

ABSTRACT

The sole aim of this project is to create awareness to a very sensitive topic that has significance to our economy. Finding out the impacts of privatization of manufacturing industries in Tanzania showcases the significance of privatizing these firms at the same time acknowledges the downfall of privatization of the same. The research design will involve secondary data which will be incorporated from samples of more than one manufacturing company; Mainly Tanzania Breweries Limited (TBL) and Tanzania Cigarette Company (TCC). The other samples used include Tanzania Litho Limited (TLL), The Blankets and Textiles Manufacturers Limited, Mtibwa Sugar Company, Handicrafts Marketing Corporation Ltd (HANDICO) and Morogoro Canvas Mills. Furthermore, the secondary data of various years will be analyzed to ensure reliability and validity of the results. The collected data will then be analyzed and interpreted with much emphasis being laid on the impact of privatization of manufacturing firms like the famous TBL and TCC which is the main sample frame. Summaries and conclusions will be drawn to show how privatization has brought significant results on Tanzania's economy as a whole. The study uses variables like efficiency, government's revenue, employment levels, output and technology have been brought about by privatization.
