concluded that loaders who wow oupposed to resolve tho land conflicts were not able to solve
land conflicts because they had no enough skills, This was attributed by lack of educafon
among the traditional loaders, In the second objective, the study concluded that majority of the
village loaders havo boon elected in 2019 and have not boon trained in anything about good
governance and also because many villages have no village executive officers it becomes a
serious problem on understanding an laws as copies of land laws and land use plan, Lastly,
the study concluded that there wore various obstades hindering land conflict resolution,
Village loaders are prone to corruption and are be always suspected to that, because of the
nature of work they are doing, that happens because, they are not paid anything, they work as
volunteers for the whole period of their leadership, It is recommended that, Longido District
Council should undertake increased efforts in capacity building through constant provision of

local leaders who most of them are members of the ward land tribunals. This can **be** carried
out through formal training sessions and through frequent workshops and awareness rising
as also contributed to the
among both the leaders and the local population. Capacity building w
improvement of local leaders in land conflict management: The village chairpersons have to
be paid some allowances as the councilors are paid, rather than working as a volunteer for the
period of five years. This situation Invites them to engage into corrupt behaviors, Effective land
use plans should he implemented in the area of the study and other areas in the country.
provide land deed. By doing so
Effective land urge plans was demarcate clear boundaries and
it was help to minimize land conflicts to the large extent.
